

HQSE Policy

Health & Safety, Quality and Environment

Acres Engineering Ltd is an established engineering company who are committed to providing a quality service to our customers whilst ensuring the safety of employees and reducing our impact on the environment.

With emphasis on improving our environmental performance whilst providing a quality product and service to all our customers we have a practical approach centered on the needs of all our customers and know that on time delivery of correct to specification parts is vital to our continued success.

To achieve this, we will:

- Ensure that all employees at Acres Engineering understand and conform to the principles laid out in this policy.
- Provide and maintain a working environment that is both safe and without risk to health, together with adequate facilities for welfare at work
- Provide training, information, supervision and instruction to enable employees to perform their work safely and efficiently
- Provide all necessary safety devices and protective equipment and supervise their use
- Maintain a constant and continuing interest in health & safety matters applicable to the Company's activities, consulting with and involving employees wherever possible
- Harness the knowledge and experience of all our employees whilst committing to our company mission and culture
 - statements focused on innovation, quality and on time delivery with minimal impact to the environment.
- Design products and purchase components/ services that have the least effect on the environment and encourage others to do the same within both Acres supplier and client base.
- Minimize our waste impact, and re-use, or recycle as much waste as possible and dispose of waste responsibly
- Minimize energy and water usage in our buildings, processes and vehicles in order to conserve supplies, and minimize
 - our consumption of natural resources, especially where they are non-renewable.
- Apply the principles of continuous improvement and reduce any impact from our operations arising from any existing
 - or new processes or products on the environment and local community.
- Address complaints about any breach of our HSQE Policy promptly and to the satisfaction of all concerned.

We are committed to complying with the requirements of ISO9001:2015, ISO14001:2015, customer quality, regulatory and other requirements to continually improve the effectiveness of the HSQE Management Systems.

Acres Engineering have established measurable health & safety, quality and environmental objectives. We review our objectives and targets in our annual Management Review Meeting (Agenda REF AF-51 / FCP-29). We review the following in our quarterly HSQE meeting (Agenda REF AF-167): Health & Safety, Quality and Environmental Aspects Identification & Control.

This statement represents our commitment to HSQE.
